A Message from Our President

Founded in 1975, the Florida Suncoast Chapter is a non-profit, non-political organization dedicated to safety in building construction through responsible legislation, education and building code development.

The Florida Suncoast Chapter is one of the many regional chapters of the ICC and BOAF, and is composed of code enforcement officials, architects, engineers, contractors, manufacturers, suppliers, and other construction professionals, working together to promote professionalism in code application. The Chapter serves the Florida Suncoast, which includes Pasco, Pinellas, and Hillsborough counties.

The Suncoast Chapter regularly sponsors continuing education hours for building officials, plans examiners, inspectors, architects, engineers, and contractors. These seminars allow members to obtain continuing education required for professional licensure.

If you are not currently a member of the Sun Coast Chapter, I strongly encourage your involvement through membership and participation in our organization. A membership application can be found by clicking on the Membership Application tab on our Membership Application Link.
